Bringing Books to Life

How new technologies can enhance your teaching

Mercoledì 16 marzo 2011 - ore 10.30
presso Istituto Tecnico Industriale "Sarrocchi di Siena"
 Via Pisacane, 3 - Siena

While course books remain the teacher's most faithful and reliable companion in the classroom, the didactic possibilities which new multimedia technologies offer are endless. Black Cat invites you to an afternoon of innovative and informative workshops to help teachers stimulate students and maintain their motivation while saving on precious preparation time.

Programme

Opening session: Anna Fattori, *gruppo LEND Firenze*

First session

"Reading is to the mind what exercise is to the body"

This session focuses on the skill of Reading and how teachers can use even the shortest of literary texts as a departure point for exciting lessons. Our aim is to demonstrate to teachers how new digital materials can enhance the classroom environment with enjoyable, ready-made, user friendly activities.

Coffee Break

Second session

The Total Solution

KET, PET and FCE examinations each cause students different areas of concern.

This session will provide practical ideas while demonstrating how the IWB can be exploited in class to ensure students' examination success.

Particular attention will be given to the Listening and Speaking sections of the KET, the Reading section of the PET examination and the Use of English session of the FCE.

Trainer: Karl Matthews- English Language Teaching Consultant

Duration

2h 30'

ESONERO MINISTERIALE CONCESSO. AI PARTECIPANTI VERRÀ RILASCIATO UN ATTESTATO DI PARTECIPAZIONE.
